

## Run to the Rainbow

There's no pot of gold  
if that's what you're looking for.  
Different kind of treasure  
one worth so much more.

Peace and understanding.  
World with no war.  
Riches for the taking.  
New world to explore.

*(Refrain)*  
Run to the rainbow.  
Catch it if you can.  
Colors coming toward you  
since serenity began.  
Run to the rainbow.  
Reach out and take a hand.  
Keep it safe inside you.  
Brotherhood of man.

We come in many colors –  
it shouldn't change the plan.  
Time to show hate the gate  
and ban it from the land.

Let's all share the rainbow.  
Paint new portraits of ourselves.  
We all can be a better me  
and bid our fears farewell.

Why leave this world as enemies  
when we can part as friends?

*(refrain)*

## Supernaturally High

I don't know this feeling  
Never had it before.  
I just hit the ceiling  
while being on the floor.  
Captured by enchantment –  
always craving more.  
Emotionally dependent,  
it's you I adore.

*(Mid-8)*  
You are my addiction,  
my dangerous desire.  
You are my prescription  
to get closer to the fire.

*(Refrain)*  
Gotta stay high with you  
Hey Hey Hey Doo Doo Doo  
U gotta stay high with me  
Hey Hey Hey Hee Hee Hee  
Supernatural,  
Supernaturally high.  
Supernatural,  
Supernaturally high.  
Supernatural,  
Supernaturally high.  
Supernatural,  
Supernaturally high.

Be each other's castles  
Live each other's dreams.  
Heaven without the hassles –  
a kingdom for a queen.  
We take it to the limit –  
intense and full extreme.  
A high I'll never know again.  
A love full-on supreme.

*(mid-8)*

*(refrain)*

It's all so supernatural.  
Magic's in the air.  
If it's a habit, then I have it.  
Caught the love disease.  
Jonesin' for your body, baby.  
All it takes to please.

*(refrain)*

## Lavender Love-In

Music in the meadow.  
Peace is now declared –  
Sharing good between us.  
Compassion everywhere.

*(Refrain)*  
Lavender love-in.  
Incense in the air.  
Lavender love-in.  
together in our lair.  
Lavender love-in.  
Blossoms and a prayer.  
Put a flower in your hair.

Gentle beings gather.  
Flock without the fleece.  
Does it really matter  
how we tame the beast?  
How we tame the beast?

*(refrain)*

*(Mid-8)*  
Our intention, so much more  
when we are hand-in-hand.  
Go to where the love is.  
Peace will find a way.  
Walk on this earth gently.  
We can change today.

Dance to heart's desire.  
Commune with other souls.  
Time to put the love in.  
Lavender love-in.

## Make Love, Not War

Will you share my jasmine tea  
until our pot runs dry?  
Sleep under the shining stars –  
watch sunrise in the sky.  
See the colors all around  
without a reason why.

Let's walk hand in hand.  
Kiss with kind embrace.  
Smell blossoms in the fragrant air.  
Trouble without a trace.  
Let's declare it everywhere.  
Every person. Every place.

*(Refrain)*  
Make love, not war.  
Make love, not war.  
Make love. Make love.  
Make love, not war.  
Hate is such a bore.

*(Mid 8)*  
Friend instead of foe?  
Truth instead of lies?  
Unity for you and me  
grows and multiplies.  
Emerge from our cocoons.  
And fly like butterflies.

I'll tell you all my dreams  
if you will tell me yours.  
Why fit in when standing out  
frees us from the herd?  
Dig the music. Do the dance.  
Up to us to spread the word.

*(refrain)*

## Someone

Someone left the light on.  
Someone shared a smile.  
Someone saw the daybreak.  
Someone reconciled.  
Someone kept a secret.  
Someone found a treasure.  
Someone saw the blue skies.  
Someone found the pleasure.

*(Refrain)*  
I want to be that someone  
with sunshine in my soul.  
With happy days ahead –  
who's warm instead of cold.  
I want to be that someone.

Someone helped another.  
Someone made it better.  
Someone found a new way.  
Someone shines with splendor.  
Someone lit a candle.  
Someone paved the way.  
Someone forgot their sorrow.  
Someone had their say.

*(refrain)*

*(Mid-8)*  
It's a journey to get to heaven.  
It's a walk to find the joy.  
Discover your own essence.  
Cut out all the noise.  
Love is not the question –  
it's the answer we should give.

Someone showed some kindness.  
Someone saved a stray.  
Someone hugged a stranger.  
Someone made their day.

*(refrain)*

I want to be that someone.

## Our Turn

You had your chance to do your dance –  
form the future for us all.  
Is it better? Have lives improved?  
Or have your efforts hit the wall?  
We're still at war, just like before.  
You don't talk about it much.  
If our system's still run by you  
no wonder we're out-of-touch.

### *(Refrain)*

It's our turn, It's our voice –  
we'll step up to be heard.  
Time to store old ways away –  
questions to be answered.  
It's our turn, It's our voice,  
time to shape what life becomes.  
We create our destiny –  
to do what must be done.

Such a mess you've left us in –  
so many issues unresolved.  
Can women earn as much as men?  
Has prejudice evolved?  
Do homeless have a place to live?  
Do Vets now have good care?  
Why is health so costly when  
the sick are in despair?

### *(refrain)*

### *(Mid8)*

No one else can do it for us.  
No one else can make it right.  
It's up to us to lead the way.  
Up to us to lead the fight.  
We're not idle puppets who  
let others pull our strings.  
Our turn to be first in line –  
bring what we need to bring.

### *(refrain)*

We create our destiny –  
to do what must be done –  
to do what must be done –  
to do what must be done –

## Using You

Finally found  
the one I was looking for.  
Magic, the first moment.  
Want to be together.  
Want to make it tight.  
Build a future –  
making love through the night.

### *(Refrain)*

No matter what you think.  
He's just using you  
He'll push you to the brink  
with every wink.  
Using you. Using you. Using you.

When we're online –  
it's like you're really here.  
Your smile on my screen  
comes in so loud and clear.  
Got the flowers  
you sent last night.  
Roses for our romance –  
my dating dynamite.

### *(refrain)*

### *(Mid 8)*

I want to come and see you  
but you live far away.  
I'm in Pennsylvania –  
and you're in L.A .  
The miles between us  
shouldn't keep us so apart.  
No matter the distance, baby  
you're always in my heart.

No matter what you think.  
He's just using you  
No matter what you think.  
No matter what you think.

He's just using me...

## H'ashbury (Haight-Ashbury)

Brothers and sisters  
come hear the clarion call.  
We all were here before  
when love was a waterfall.

Find the family again  
on the corner of peace and love.  
We can get together  
with flowers and the doves.

### *(Refrain)*

H'ashbury.  
Haight-Ashbury.  
Comin' back to you.  
H'ashbury.  
Haight-Ashbury.  
Dreams can still come true.  
H'ashbury.  
Haight-Ashbury.  
A loving landlocked ark.  
H'ashbury.  
Haight-Ashbury.  
H'ashbury's in our heart.

Listen to the music.  
Dance the way you feel.  
Be the spirit flying free.  
Make it all too real.  
Smell the incense. Wear some beads.  
A flower in your hair.  
Find your tribe, it's what you need.  
A place where love is shared.

### *(refrain)*

### *(Mid-8)*

Been gone so long dear H'ashbury.  
Forgot our way to here.  
The golden city by the bay –  
different than it appears.

Can we return and reunite  
the clan back once again?  
Kindness and understanding  
where everyone's your friend?

### *(refrain)*

## Rock It!

Rock it like it used to be –  
ROCK IT!  
Rock it like Jerry Lee –  
ROCK IT! like Bill Haley –  
ROCK IT!

Belt it out like Bo Diddley –  
ROCK IT!  
Play guitar like Chuck Berry –  
ROCK IT!  
Les Paul made history.  
ROCK IT!

Elvis sang and swung his hips  
ROCK IT!  
Buddy Holly – what a trip!  
ROCK IT!  
Little Richard's Tutti-Fruity rips.  
ROCK IT!

Sam the man could really cook.  
ROCK IT!  
Ricky Nelson had the looks.

### *(Refrain)*

Three two one, let's have some fun –  
ROCK IT!  
Back to where it first was sung.  
ROCK IT!  
Now the party's just begun!  
ROCK IT!  
Three two one, let's have some fun –  
ROCK IT!  
Back to where it first was sung.  
ROCK IT!  
Now the party's just begun!  
ROCK IT!

Screamin' Jay put a spell on you.  
ROCK IT!  
Carl Perkin's Blue Suede Shoes.  
ROCK IT!  
Big Bopper blew his fuse.  
ROCK IT!

Duane Eddy's twangy axe.  
ROCK IT!  
Last name Domino, first name Fats.  
ROCK IT!  
Ray Charles –Hit the Road, Jack.  
ROCK IT!

### *(refrain)*

### *(Mid8)*

Grab a dance with your little doll.  
Love it, love it, love it.  
Inspiration for John and Paul.

### *(Refrain)*

## Opposites Attract

Some might think we're a little odd.  
Opposite of two peas in a pod.  
Less in common, lots we lack.  
All good, it's understood  
'cause opposites attract.

Magnetic attraction's always there.  
Plus and minus, circle and square.  
Can't be more different, that's a fact.  
All good, it's understood  
'cause opposites attract.

### *(Refrain)*

Opposites attract.  
*(certainly not the same)*  
Opposites attract.  
*(goes against the grain)*  
Opposites attract.  
*(really can't explain)*  
Opposites attract.  
*(our love still remains)*  
Opposites attract.  
*(certainly not the same)*  
Opposites attract.  
*(goes against the grain)*  
Opposites attract.  
*(really can't explain)*

You dig veggies, I like meat.  
Quite contrary what we eat.  
I add, while you subtract –  
All good, it's understood  
'cause opposites attract.

### *(refrain)*

### *(Mid 8)*

I love you, not a mirror of me.  
Together is where we want to be.  
I say right, you say left, agree to disagree.  
Unlikely possibility –  
but then, I think that's the key –  
a perfect match,  
like champagne with brie.

Opposites attract.  
*(certainly not the same)*  
Opposites attract.  
*(goes against the grain)*  
Opposites attract.  
*(really can't explain)*  
Opposites attract.  
*(our love still remains)*

## **It Don't Work that Way**

I've watched your battles.  
Struggle as you try to cope.  
Wrestle with your demons.  
Wrecks havoc with your hope.

There's no easy access.  
No shortcut for your life.  
Sometimes you just can't get there  
no matter how you fight.

*(Refrain)*

It don't work that way.  
It don't work that way.  
Best laid plans. Another chance.  
It don't work that way.  
World turns, it's not concerned.  
Cuz, it don't work that way.  
It don't work that way.

You're going nowhere.  
Gettin' there plenty fast.  
Already wore out your shoes  
from places you have past.

Walkin' in big circles –  
you've seen the scenes before.  
Discover a new direction.  
Get out and explore.

*(refrain)*

*(Mid-8)*

What if there was really gold  
at the rainbow's end.  
Unicorns, fairy dust  
and imaginary friends.  
All the food we can eat,  
sweets without decay.  
Fantasy is fiction,  
'cause it don't work that way.

It don't work that way.  
It don't work that way.  
It don't work that way.

## **Frets and Regrets**

Eatin' my heart out.  
Drink 'til I black out.  
Carryin' a heavy load.  
All my frets and my regrets.  
Watchin' my life erode.  
My life erode.

*(Refrain)*

It ain't easy.  
It ain't right.  
All my frets and damn regrets  
keepin' me uptight.  
The blues never lose.  
Cry into the night.  
The blues never lose.  
Cry into the night.  
All my frets and sad regrets –  
wrong instead of right.  
The blues never lose.  
Cry into the night.  
The blues never lose.  
Cry into the night.  
All my frets and sad regrets –  
wrong instead of right.

Nerves – fried and fragile.  
Stomach in a knot.  
Nothing soothes the heartbreak.  
Spirit's set to rot.  
All my frets and damn regrets  
laying me so low.

Can't escape the sadness.  
Gnawin' at the grief.  
Missed my shot at happiness.  
Lookin' for relief.

Trouble at the door.  
all my frets – sad regrets  
there's more in store.

*(refrain)*

## **A Dinkin' Problem (The Pickleball Song)**

Got a dinkin' problem  
Back in the court again.  
Got a dinkin' problem  
The net is not my friend.  
Got a dinkin' problem  
End up gettin' smashed.  
Got a dinkin' problem.  
Goin' by too fast.

Got a dinkin' problem  
Really in a pickle.  
Got a dinkin' problem  
Money's in the middle.  
Got a dinkin' problem  
Lob the ball a bit.  
Got a dinkin' problem.  
Make the baseline hit.

*(Refrain)*

Who's the serve?  
What's the score?  
Are you one or two?  
Can't stay out of the kitchen  
or make drop shots true.  
First one to eleven  
wins and then stays in.  
If there's pickleball in heaven  
that's where I'll find some friends.

Got a dinkin' problem  
Wish I had the touch.  
Got a dinkin' problem  
Slammin', not so much.  
Got a dinkin' problem  
Takes patience, that's for sure.  
Got a dinkin' problem.  
Looking for the cure.

Got a dinkin' problem  
Can't get over it.  
Got a dinkin' problem  
I'd rather do a hit.  
Got a dinkin' problem  
It's all about the stroke.  
Got a dinkin' problem.  
Try and then I choke.

*(refrain)*

*(Mid-8)*

In the gym or great outdoors  
fresh start, new game, new scores.  
Side in, side out,  
If you lose, no time to pout.  
When the poacher pounces  
that's the way the ball bounces.  
That's the way the ball bounces.

If there's pickleball in heaven –  
If there's pickleball in heaven  
that's where I'll find some friends...

## **Thirsty University**

Friends leavin' hometown –  
off to parts unknown.  
College is a callin' –  
leaving me all alone.  
Folks come up and ask,  
"Where you headed, (girl) son?"  
I tell 'em "Thirsty University"  
where I'll graduate in fun.

Lager and Pilsner –  
Brown Ale and some Stout.  
Dark ones, light ones –  
I-P-A's will really knock you out!  
Gotta start in the morning  
if you're gonna drink all day.  
Stumblin' through my classes  
and I'm goin' to get an "A!"

*(Refrain)*

Thirsty University.  
Drinkin' lotsa beer.  
Crammin' for a pop quiz –  
with a bottle full of cheer.  
Thirsty University.  
Homework every night.  
Get a P-H-D in alcohol –  
my future's lookin' bright.

*(Refrain2)*

Higher education  
is where I want to be.  
A school that helps make  
everything easy, you see.  
Might take years of study,  
that's alright with me.  
Washin' down all that knowledge  
while getting my degree.

Thirsty University.  
Never skip a class.  
Don't have to study  
just to raise a glass.  
Thirsty University.  
Higher education.  
Everyday a Saturday.  
Always a celebration.

Few go to college to be  
doctors and engineers.  
Some have to find themselves  
before they start careers.  
Do what you love to do  
is the best advice for me.  
Sippin' suds with my buds  
at Thirsty University.

*(refrain)*

*(refrain2)*

## **Joni**

I wish I had known you then.  
Singing your poetry so confidently –  
a woman in control.  
A woman expressing her wisdom,  
composure, certainty.  
A woman expressing her skepticism,  
vulnerability, sensitivity.  
Just you and me  
alone together  
listening to the LP –  
lyrics speaking to my heart.

Perhaps, I should have abandoned school  
and driven to Laurel Canyon.  
Would you have been my friend?  
Ten years older and so much wiser.  
As a girlfriend, I didn't intend.  
I'd leave that for David or Graham  
or fellow Canadian Neil.  
But I would have loved to know  
what made you tick.  
Learn what made you feel.

For the Roses is still my favorite.  
Capturing the devotion  
of a precocious eighteen year old  
with words that shaped my life.  
Listening again, forty seven years later,  
it catapults me back instantly  
to that fresh, frustrating, formative time  
that helped craft the whole of me.

I remember you complaining on  
Miles of Aisles about the audience  
demanding to hear your old songs.  
You said they never would ask Van Gough  
to paint another Starry Night.  
But I can listen without your permission  
as many times as I desire.  
Experience my own starry night  
as my soulful reflection transpires.

I wish I had known you then.

*All tracks written by Edmond Bruneau and  
Michele Zara except for the bonus track  
Joni, (Feat. Liz'n Taylor) written by Edmond  
Bruneau, Jürgen Geppert and Petra Stief.*
